This Summer 1

Take EDU 201: 10:50am – 12:10pm

Dr. Donal Mulcahy.

**EDU 201**, Policy and Practice, is a discussion-centered class fulfilling Divisional Credit and Cultural Diversity Credit. We have all been to school and we all have opinions about the good and the bad of schooling. This class allows you to draw on your own experiences in school and contextualize them in the socio-historical, philosophical and political realities that shape school and society. The focus of this course is on the various roles schools play in society, the potentials and problems of schooling and the influences society has on school. (3 Credits).
